

**PLUG INTO
THE GLOBALLY
RECOGNIZED
RESEARCH AND
INNOVATION
CAPABILITIES OF
UNC CHARLOTTE.**

LET'S PIONEER TOGETHER.

Leave the myth that university partnerships are impossible to establish at the door. UNC Charlotte is open for business with PORTAL, the premier workspace and innovation center for regional and global pioneers.

The PORTAL building is located on the beautiful campus of North Carolina's urban research university. With over 90,000 sq. ft. of office and support space dedicated to business and research partners, PORTAL is the go-to destination for progressive companies seeking innovation and development in areas such as energy production, data science and business analytics, biomedical research, optoelectronics, information security, and advanced manufacturing, to name a few.

Step inside PORTAL and experience its contemporary aesthetic and dramatic 4-story atrium bound by offices, meeting rooms, and a café. Naturally lit community gathering spaces facilitate networking and idea exchange between entrepreneurs, researchers, and corporate innovators. But your connections won't stop there.

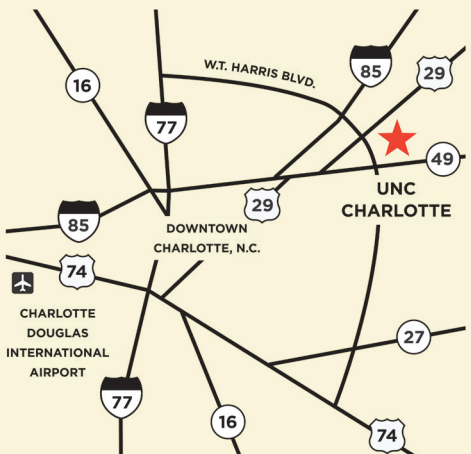

Walk outside your PORTAL office door and collaborate with UNC Charlotte's merited faculty and students who are solving global issues and discovering new breakthroughs each day. Some of the world's foremost innovators have staked their claim through shared research and UNC Charlotte partnerships. Let us help stake yours.

Competitive space licensing terms, flexible office suite plans, and immediate access to exceptional resources, talent, and an innovation-rich environment are just a few reasons to consider PORTAL as your next business address. And it all comes standard when your office is powered by UNC Charlotte.

Visit partnerships.uncc.edu or call 704-687-5690 for additional information.
